About US

Clear Aqua a fast growing Water and waste water treatment plants manufacturing company having its base in Trichy and networks across the World.

Promoted by young technocrats. Who have decades in the field of commercial and industrial Water treatment. Naturals water sources are dwindling by the day. Due to industrialization and growth in population. Hence the awareness to Conserve and Treat water to make it up safe and trouble free water. Clear Aqua is an Organization of Engineers and Chemists, with experience virtually in all Engineering and Pure Science Disciplines. Clear Aqua Designs Water and Wastewater Treatment Equipments and builds turnkey projects from Development, Engineering, Testing, Erection and Commissioning all within one responsibility. Clear Aqua has well-defined projects execution process to meet the stringent standards of consultants and EPC contractors.

Clear Aqua builds value to its customers by providing the latest available technologies. We offer

Projects

- Water Treatment
- Sewage Treatment
- Effluent Treatment
- Recycling
- Zero Liquid Discharge

Sales

Spares, Water & Waste Water Treatment Chemicals, Membranes, Pumps, Diffusers, Blowers, Components

Services

Revamping, Optimization, Up gradation, Erection, Commissioning, Trouble Shooting, Operation & Maintenance

Industrial Water Treatment

Clear Aqua., Designs and Manufactures Specialized Water Treatment for Industrial and Process.

Applications in FRP. Mild Steel. Stainless Steel make.

Products

- Reverse Osmosis
- Ultra Filtration
- Micro Filtration
- Membrane Filtration
- Nano Filtration
- Ion Exchange
- Electro De Ionization

Applications

Beverages, Boilers & Cooling Water Feed, Process Applications, Desalination, High Purity Water Generation, Petro Chemical Industrial Application, Fruit Beverages, Breweries, Pharma Grade Water etc...

Sustainable water & waste water solutions
for the 21st century

Sewage Treatment Plants:

Clear Aqua, expertise in the design and development of Sewage Treatment Plant and recycling plants.

The domestic sewage from Toilet, Bathroom, Kitchen, Wash water can be biologically treated with the State of the Art Sewage Treatment Plants using variuous technologies in Packaged & Conventional Types.

Products

Packaged Sewage Treatment Plants | UASB Based Sewage Treatment Plants | ASP Based Sewage Treatment Plants
MBBR Based Sewage Treatment Plants | Bar Screens | Oil Skimmers | Primary/Secondary Clarifiers
Diffused/Floating/Surface Aerators | Membrane Bio Reactors (MBR) | SBR Based Sewage Treatment Plants
Ultra Filteration

Applications

Municipal Waste

Institutions

Housing Colonies

Apartments

Industries

Hotels

Shopping Malls

Hospitals

BOD Reduction

Gardening Water

Reuse

Effluent Treatment & Recycling Plants

Clear Aqua., designs sustainable Effluent Treatment & Recycling Plant to treat Effluent from various industries.

Products

Effluent Treatment Plants | Oils & Grease Removal Systems
Flash Mixers | Primary/Secondary Clarifiers | Aerators | Tube Settlers
Lamella Clarifiers | Extended Aeration Systems | Filtration
Multi Stage R.O Plants | Evaporation Systems | Ultra Filtration Plants.

Applications

Waste to Potable Water

Zero Discharge Plants

COD. BOD Reduction

Heavy metals precipitations

Recycling Applications

Recovery Applications

Technical Support

On Site Services, Plant Start up Services, Spare Replacements in Water and Waste Water Treatment Equipments, UF/NF/RO Membrane Cleaning Services, Trouble Shooting Services, Plant Operation Training Services, Chemical Dosage Optimization Services, Preventive Maintenance Services, Operation and Maintenance Services, Annual Maintenance Services
